### PROJECTS

---

#### [Make Together](#)

A site for web designers and web developers to meet, post projects seeking collaborators, and connect. Built with Rails as a back-end, with Bootstrap and jQuery on the front-end.

Featuring Github Omniauth and a custom oauth solution for Dribbble.

Using a second Faye server, users are able to instant message each other in realtime. Built with Lisa Buch, Samantha Holmes, and Caitlin Hoffman.

### EDUCATION

---

#### Dev Bootcamp

Immersive 18-week fullstack web-development bootcamp teaching Rails-based development. Emphasis placed on technical mastery, industry best practices, building code with others, and profound commitment.

#### Queen Mary, University of London MA Renaissance and Early Modern Studies 2013

Immersive database research, original analysis, complete mastery in specialist sphere, and publication-level writing. Original dissertation on Sir John Mandeville.

#### Stony Brook University BA English 2011

Highlights: Calculus, Cognitive Psychology, and dissertation project.

### SUMMARY

---

I am a Dev Bootcamp graduate seeking a junior-level engineering position where I can make an impact by shipping meaningful code while having the opportunity to learn. I'm interested in bending my previous experience with HR, Compliance, and writing to help support my company's overall initiatives, as I'm excited to make contributions in multiple business areas.

### EMPLOYMENT

---

#### Axion Healthcare Staffing NYC

Compliance Executive · 2014 to 2015

**IT:** Helped provide office IT services, implement new solutions, test changes, research options in current solutions, and impact company IT strategy. Implemented new e-sign solution, created documentation, and spearheaded massive procedural changes for multiple teams.

**Compliance:** Crafted and edited legal documents and defenses, helped port hundreds of employees onto new payroll, and created centralized database for placement requirements.

**HR:** Crafted and managed documents and projects for employee management, processed various claims, and created FMLA, paid sick leave, and vacation leave policies and documents.

**Legal/Management:** Kept an eye on changing laws to inform policies; created and maintained policies, procedures, and other documentation to comply with legal and client needs.

### SKILLS

---

Ruby, Rails, CLI tools, JavaScript, jQuery, HTML5, CSS3, Bash/shell, git & Github, Heroku, Agile workflow, Sinatra, Tech Leadership, SQL
